# MISSISSIPPI ENERGY EFFICIENCY AND CONSERVATION BLOCK GRANT PROGRAM

## PROGRAM OVERVIEW

The Mississippi Development Authority's Energy and Natural Resources Division (MDA-ENRD) has been awarded funding to administer the Energy Efficiency and Conservation Block Grant (EECBG) Program. This program supports projects that reduce energy consumption in public facilities while lowering long-term operating and maintenance costs.

## ELIGIBLE PARTICIPANTS

MDA-ENRD will select projects from Mississippi cities and counties that were not eligible to receive direct EECBG Formula Grant funding.

## AWARD AMOUNTS

**Maximum Award: $125,000**

**Minimum Award: $30,000**

## ELIGIBLE PROJECTS

- **Lighting and Daylighting:** LED and other high-efficiency lighting upgrades
- **HVAC Systems:** Equipment replacements and system upgrades
- **Building Envelope Improvements:** Insulation, window film, weather sealing and upgraded doors and windows
- **Water Heating:** Energy-efficient hot water systems
- **Industrial Systems:** Efficiency improvements to boilers, chillers and similar systems
- **Energy Management:** Control systems and programmable thermostats

## TENTATIVE TIMELINE

**Spring/Summer 2026**

- Application materials released
- Pre-application webinar
- Application portal opens

**Fall 2026**

- Project selection and subawards issued
- Project completion
